PROFESSIONAL SUMMARY

MCA graduate and Full Stack Developer with hands-on experience building scalable web applications using TypeScript, Next.js, React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, API testing, SQL, and Agile/Scrum methodologies, with familiarity in Generative AI technologies, AI automation workflows, and AI-assisted development tools to enhance productivity and software quality.

EXPERIENCE

Software Developer | One Planet Technologies LLP, Mangaluru

Feb 2026 – Present

- Deliver scalable, end-to-end features across the stack using TypeScript, Next.js, React.js, Node.js, Express.js, and MongoDB, ensuring a seamless user experience in production.
- Architect advanced Next.js applications with deep, hands-on focus on full-stack debugging and designing scalable, well-normalized MongoDB database schemas.
- Integrate GenAI and prompt engineering techniques alongside Google Auth and geolocation features to extend product functionality.
- Integrated Razorpay payment gateway to enable secure, end-to-end online transactions within the application.
- Handle media management via Cloudinary and support deployment/maintenance using cPanel and Hostinger, including PHP/Laravel-based modules.

Software Development Intern | Softionik Solutions, Mangaluru

May 2025 – Jul 2025

- Built Ayush, a cross-platform mobile app using React Native, Node.js, MongoDB, and JWT authentication, handling customer and admin modules end-to-end.
- Integrated 6+ REST APIs for product listings, pooja booking, and calendar scheduling, resolving failures through systematic debugging and root-cause analysis.
- Wrote and executed unit/integration test cases using Postman, identifying and resolving critical bugs prior to release.

SKILLS

Languages: Python, Core Java, JavaScript (ES6+), TypeScript, PHP

Frontend: React.js, Next.js, React Native, HTML5, CSS3

Backend: Node.js, Express.js, FastAPI, Laravel, REST APIs

Databases: MongoDB, PostgreSQL, MySQL

Integrations & APIs: Cloudinary, Razorpay, Google Auth, Geolocation APIs, Prompt Engineering, GenAI

DevOps & Hosting: Docker, Jenkins, GitHub Actions (CI/CD), AWS, Hostinger, cPanel, Cursor (GenAI), Claude AI

Methodologies: Agile/Scrum, MVC, SDLC, REST Architecture

PROJECTS

Question Paper Generation System (QPGS) | React.js, Node.js, Express.js, MongoDB, REST APIs

- Built a dynamic tool for institutions to auto-generate question papers aligned with Course Outcomes (COs), Programme Outcomes (POs), and Bloom's Taxonomy. Implemented RBAC for admin/faculty roles, question bank management for 500+ entries, and PDF/Word export. Deployed with Node.js backend serving 20+ concurrent users.

Full Stack Inventory Management System | Fast API, React.js, PostgreSQL, SQLAlchemy

- Developed a full-stack inventory system with FastAPI backend and React frontend. Implemented CRUD APIs with PostgreSQL persistence via SQLAlchemy ORM, advanced filtering/sorting UI, and OpenAPI (Swagger) documentation. Achieved sub-200ms response times on core endpoints.

Ayush – Cross-Platform Mobile App | React Native, Node.js, Express.js, TypeScript, MongoDB, JWT

- Created a mobile app integrating Ayurvedic product e-commerce with pooja service booking. Implemented JWT-based authentication, customer/admin module separation, real-time calendar scheduling, and push notifications. Supported both Android and iOS platforms.

EDUCATION

Master of Computer Applications (MCA)

Dec 2023 – Aug 2025

ST Joseph Engineering College, Mangalore — CGPA: 9.00 / 10

Bachelor of Computer Applications (BCA)

Aug 2020 – Aug 2023

Sharada College, Talapady, Mangalore — CGPA: 8.93 / 10
